## FOREST & SERENGETI PLAINS

### TANZANIA - 8 DAYS GREEN SEASON - DECEMBER TO MARCH

This 8-day safari offers the best of northern Tanzania when the great migration spreads out on the famous Serengeti Plains. Accommodation is in either seasonal or exclusive tented camps and in stylish high-end lodges. We begin in Arusha, then travel westwards to the Ngorongoro Crater, before continuing to the vast Serengeti Plains, renowned for the Great Migration. We fly back to Arusha at the end

#### 8-DAY ITINERARY - DECEMBER TO MARCH - Key to meals included - B=Breakfast, L = Lunch, D=Dinner

Day 1	Arrive on international flight. Drive 1 hour to <a href="#">Ngare Sero Mountain Lodge</a> for 2 nights	D only
Day 2	Visit Arusha National Park - 2nd night at Ngare Sero Mountain Lodge.	B,L,D
Days 3 & 4	Drive to Ngorongoro for 2 nights at <a href="#">Entamanu Camp</a>	B,L,D
Days 5-7	Drive to Serengeti Plains for 3 nights at <a href="#">Seasonal Luxury Tented Camp</a> ,	B,L,D
Day 8	Last day - Day rooms at Ngare Sero Lodge, transfer to international airport and fly home	B,L

## HIGHLIGHTS

Breathtaking views of Mount Kilimanjaro and Mount Meru at dusk. Getting close to game on foot in Arusha National park. Amazing wildlife densities in Ngorongoro Crater. The great migration: thousands upon thousands of lowing wildebeest and braying zebra scattered across the vast ocean-like plains. The incredible variety of scenery, sheer size of the Serengeti and an insight into the Maasai tribal way of life.

## ACTIVITIES

Activities shown *in italics* may be possible if requested before finalizing the itinerary, and with prior planning.

**Arusha** - (if there is time) *shopping, massages (extra cost), visiting markets or schools*

**Ngorongoro Crater** - game drive in Ngorongoro Crater, *walks and cultural visits may be possible outside the Crater if staying in a tented camp.*

**Central Serengeti Plains** - game drives, Olduvai Gorge visit (optional), hot air balloon flight (extra cost)

## CLIMATE

Northern Tanzania is only 250-400kms (155-250mi) from the Equator. This means that altitude is a more significant influence on temperatures than time of year. Overall the climate is very mild and comfortable.

During the green season months temperatures are approximately as follows:-

**Arusha** - 1,400m a.s.l. (4,590 feet); min of about 14°C (57°F) and max of about 29°C (84°F).

**Lake Manyara** - 960m (3,150 feet) a.s.l., min of about 17°C (63°F), and a max of about 32°C (90°F).

**Ngorongoro Crater Rim** - 2,200m (7,200 feet) - min of about 14°C (57°F) and max of about 28°C (82°F).

**Serengeti** - 1,600-2,000m (5,250-6,560 ft) a.s.l. - min of about 15°C (59°F), and a max of about 29°C (84°F).

## FLIGHTS TO / FROM TANZANIA

**International flights** - We do not book international flights. You should fly to and from Kilimanjaro International Airport (JRO), which is around 1 hour drive from Arusha.

KLM departs from Amsterdam around 10am and flies direct to JRO, arriving around 8pm. The return flight departs around 10pm, stops in Dar-es-Salaam, and arrives in Amsterdam around 7am the next morning.

Qatar Airways departs at about 9am from Doha (Qatar) and arrives in Kilimanjaro Airport between 2:30pm and 4:30pm. The return flight departs JRO between 3:30pm and 5:30pm and arrives in Doha at 10:40pm (the arrival and departure times vary according to whether or not it stops on the way).

Emirates/Fly Dubai and Ethiopian Airlines can be good options. Turkish Airlines also fly direct to Kilimanjaro, although their arrival and departure times are not so convenient. Swiss Air and several other airlines have flights into Dar es Salaam. British Airways, Kenya Airways and others fly into Nairobi, Kenya. The best connections to/from the USA are KLM (SkyTeam/Delta partner) & Qatar/Fly Dubai (OneWorld).

**Regional flights** - Regional flights within Tanzania will be quoted depending on the routing required, and are not included in the safari cost.

## PARTICIPATION REQUIREMENTS

This highly varied safari can be tailored to suit almost any group's needs, and is excellent for children from 8 years upwards. Young children should share the tent/room with an adult, and may not be allowed to participate in some activities such as bush walks or fly camping. If there are any special needs (such as elderly people, or young children), it is crucial that we are informed before designing the itinerary for you, as these could influence our choice of lodges or places recommended. We can tailor this itinerary to most groups. For instance, we can maximize wildlife viewing and photographic opportunities, or offer a blend of activities, including opportunities for cultural interaction and to be more active.

## ARUSHA NATIONAL PARK

Due to its proximity to renowned Ngorongoro Crater and Mt Kilimanjaro, Arusha National Park is often overlooked. However this park of only 552 km<sup>2</sup> (213 mi<sup>2</sup>) has astounding variety of landscapes and scenery, substantially different to the habitats encountered in other places on a safari in Tanzania.

The park comprises several soda lakes, each with different consistencies of salts, algae and other organisms, resulting in different hues. Much of the park is covered in dense montane forest, an ideal habitat for primates such as olive baboon, blue monkey and black and white colobus monkey) and many of the forest antelope - bushbuck, red duiker and the tiny suni. The forest glades are popular with Cape buffalo, waterbuck, warthog, zebra and giraffe.

Most dramatic are its volcanic mountains, Ngurdotu Crater and massive Mount Meru, Africa's fifth highest mountain at 4,566m (14,980ft), which towers above the forest, its upper reaches often hidden in cloud.

Here it is possible to go for game drives, for short walks with an armed ranger or do canoe activities (the last 2 activities must be arranged when planning your safari). On clear days we have excellent views of Mt Meru and Mt Kilimanjaro.

## NGARESERO MOUNTAIN LODGE

[Ngare Sero](#) is one of the oldest family lodges in East Africa. It is set in lush gardens with crystal clear lakes in a 50-acre forest reserve on the slopes of Mt Meru. The original lodge was a farmhouse built by German colonist August Leue in 1905. The farm changed hands after the First World War, and fell into disrepair until engineer Mike Leach and his wife Gisela discovered and bought it in 1974, transforming it into a boutique lodge.

The lodge is now run by their son, Tim and his wife. It offers 10 garden rooms, 3 suites in the main house and a separate Farm cottage. There is a trout lake in front of the main house and several species of monkey inhabit the forest. At night bushbabies cry and nightjars rhythmically call. In the morning we are woken by the calls of doves and the smell of fresh roasted coffee.

Ngaresero is only a 40 minute drive from Kilimanjaro Airport, a 15-20-minute drive from the Arusha National Park entrance gate, and a 1-hour drive from Arusha Town and airport.

**ACTIVITIES** (*those in italics should be requested before the safari*) Game drive and/or walk in Arusha National Park, 30m lap pool, boating on the lake, croquet, trout farm visit, *cultural visit to a market, homestead or school. Mountain biking, horse riding and private yoga classes are available at extra cost.*

**COMMUNICATION** - There is a phone at reception, cellphone coverage and wifi in the main areas.

## NGORONGORO CRATER

Even without wildlife, the vast 180 km<sup>2</sup> (100 m<sup>2</sup>) Ngorongoro Crater, with its backdrop of extinct volcanos, would be amazing. However, the Crater is home to over 25,000 ungulates, and is said to have the highest density of large mammalian predators on Earth. This is undoubtedly the best place in Tanzania to view black rhino as well as large prides of lion, including magnificent black-maned males. It is also home to huge herds of wildebeest, zebra, Thomson's gazelle and other plains game. An alkaline lake in the floor of the Crater provides a habitat for colourful flamingo and a variety of other water birds.

Professor Bernard Grzimek best described the Ngorongoro Crater in his book, *The Serengeti Shall not Die*. He said, "It is impossible to give a fair description of the size and beauty of the Crater, for there is nothing with which one can compare it. It is one of the Wonders of the World."

We descend more than 2,000 feet on steep tracks cut into the crater wall to reach the open plains of the Crater floor for our game drive.

We can choose to stay in one of two very different places.

## ENTAMANU NGORONGORO CAMP

Entamanu Camp is tucked in an acacia forest on the Ngorongoro Crater rim at 2,200m (7,200ft), offering views eastwards and into the Crater below. This traditional-style tented camp, built on wooden decks, blends Maasai furnishings of cow and sheep-skin rugs and covers, beaded lampshades, and locally-made wicker armchairs with modern simplicity - and wonderful gas heaters that are a blessing at this altitude!

There are actually two camps - the main 7-room Entamanu Ngorongoro, and its smaller 4-room sister camp, Entamanu Private. The two have almost identical facilities. The main area of Entamanu Ngorongoro comprises one long tented structure on a wooden deck, with two dining rooms and a veranda at one end, and two lounges at the other, with a bar in between. The seven wood and canvas cabins, including two family units, have a large bedroom with a king-size double or two twin beds. The eastern wall consists of canvas, mosquito netting and heavy, clear plastic sheets, so the views can be enjoyed regardless of the temperature.

The rooms are adorned with cow-skin rugs, a writing desk, a charging unit for computers, cameras, etc and a gas heater. The en suite bathroom has twin wash-basins, wardrobe, shower, and flush toilet.

**ACTIVITIES** (*If in italics it should be requested before the safari*) 1 game drive in the Crater, picnic breakfast or lunch, bush walks near camp (minimum age 12 years), Maasai village visit, *Olduvai Gorge visit, local school visit.*

**COMMUNICATION** - There is limited cellphone reception. There is limited wifi in the main area.

## SEASONAL LUXURY TENTED CAMP

In the middle of the Serengeti Plains, at their lowest point, are two beautiful soda lakes - Ndutu & Masek surrounded by acacia woodland, a veritable “island” of trees surrounded by grassland. This is where our seasonal camp is situated. This area is characterised by the variation of habitats – woodland, swamp, lakes and plains, all within a few miles radius.

This camp has long, spacious, adjoining dining and lounge tents, overlooking the fireplace and wide open plains beyond. The lounge has a full bar with a small library, comfy cushions to relax in, and a bank of electrical outlets to charge camera and phone batteries. There is a public washroom tent a few metres away.

There are six tents in all. Each has large beds with crisp linen, a writing desk, dressing area and an en suite bucket shower and eco-flush loo. One is a family tent which accommodates two adults and two children in two adjoining tents, each with its own bathroom area and a shared common space with a sofa and cushions to relax. Daily laundry service is included (except ladies' smalls).

There is nothing better than sipping cocktails around the campfire at dusk, listening to a serenade of roaring lions in the distance!

**ACTIVITIES** - Game drives & bush breakfasts (included), hot air balloon flight (supplemental cost of approx. US\$ 600 per person)

**COMMUNICATION** - There is no internet service, so be prepared to be immersed in the African bush, far from the modern world. There may be patchy, sporadic cellphone coverage.
